About the Instructor

Our instructor for this workshop is Dean Pike. Dean is a long-time senior boatbuilding instructor at **The Boat School – Husson**. In 1980 he founded Moose Island Marine in Eastport and has repaired and stored boats there since that time. When The Boat School acquired a 60 ton travelift in 1984 Dean was one of the first operators and has continued to run it for the School in some capacity ever since. During this time he has hauled and launched a variety of recreational and commercial vessels from 23 – 70 ft.
